市场简析

- **利率见顶回落**
  30年期利率回落至7.32%，为8月以来首次周降；但仍比去年同期高1.13个百分点。借贷成本仍高，定价要按今天的买家来。
- **买方议价空间变大**
  全美库存4.4个月、成交/挂牌比98.4%，洛杉矶市约29%房源9月降过价。买方能挑能谈；卖方靠定价与品相。
- **量缩价稳**
  9月加州成交量同比−6.5%，中位价却涨1.7%至$899,720；洛杉矶都会区涨3.0%至$855,000。需求偏弱，但供给也没有放量。
- **政策观察：美联储10月27–28日议息**
  议息就在几天后。若利率延续回落，观望需求或快速回流——先备好预批，比猜底更重要。

给买家与卖家的建议 · BUYER & SELLER ADVICE

给买家 FOR BUYERS

- **别等完美低点：**利率连涨7周才刚回落，7.32%仍在高位。刚需先锁定房源、留好日后 refi 的空间，不要把入场全押在这次议息上。
- **用足议价窗口：**库存升至4.4个月、近三成房源降过价。可以大胆还价，也可要求卖家分担 closing 成本或做利率 buydown——现在的卖家比上半年好谈。
- **预批先行：**先备好预批和资金证明再看房。利率一旦延续回落、观望需求回流，好房源不会等你补材料。

给卖家 FOR SELLERS

- **按今天的市场定价：**锚点是同社区近期成交价，不是上半年。挂高了只会帮邻居卖房，在市时间拉长后再降价更被动。
- **把状态做在前面：**买方选择多，小修小补、深度清洁和简单 staging 的回报率现在最高——第一印象决定有没有 offer。
- **条件可以灵活谈：**给买家利率 buydown 或 closing credit，实际到手往往比硬扛挂牌价更高，成交周期也更短。

MARKET TEMPERATURE & KEY STATS • DATA THROUGH OCT 22, 2026

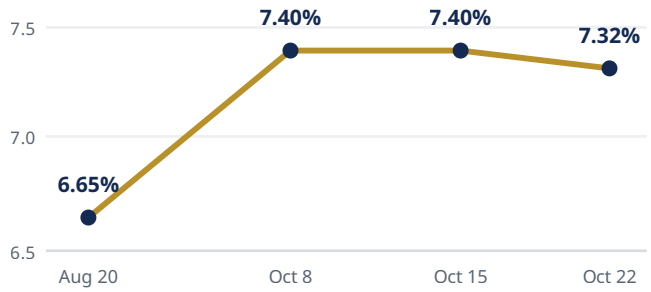

Slightly Buyer-Leaning

Buyer's Market — Seller's Market

Sales cooled in September while prices held firm — negotiating room is back for buyers.

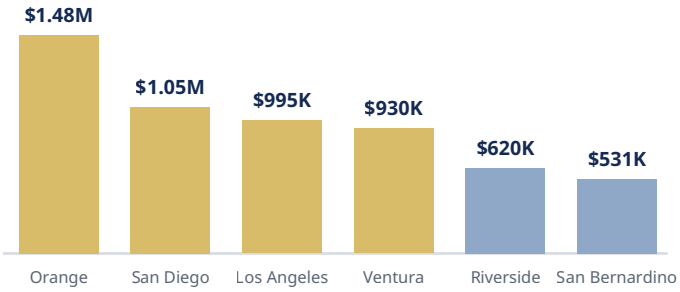

LA METRO MEDIAN	LA COUNTY MEDIAN	CA MEDIAN (SEP)	30-YR FIXED RATE	15-YR FIXED RATE	SALE / LIST (US)
$855,000	$994,670	$899,720	7.32%	6.68%	98.4%

30-YEAR FIXED RATE • KEY READINGS (FREDDIE MAC PMMS)

Seven straight gains to a 52-wk high of 7.40% — then the first dip.

MEDIAN SOLD PRICE BY COUNTY • SEP 2026 (C.A.R.)

Orange County stays in a league of its own; the Inland Empire remains SoCal's affordability valve.

MARKET INSIGHTS

- **Rates peaked, then dipped**
  Down to 7.32% — first weekly drop since August, but still +1.13 pts vs a year ago. Price for today's buyer, not last year's.
- **Buyers have leverage again**
  U.S. supply at 4.4 months, sale-to-list 98.4%; ~29% of LA city listings cut prices in September. Buyers can negotiate again.
- **Volume cools, prices hold**
  September: CA sales −6.5% YoY, but the median price rose 1.7% to $899,720; LA Metro +3.0%. Soft demand, tight supply.
- **Policy watch: Fed meets Oct 27–28**
  The next rate decision lands within days. If rates keep easing, sidelined demand returns fast — be pre-approved and ready.

ADVICE FOR BUYERS & SELLERS

For Buyers 给买家

- **Don't wait for the perfect bottom:** after seven straight gains, 7.32% is still high. Lock the right home now; refinance later.
- **Use the negotiating window:** supply is at 4.4 months, ~29% of listings cut prices. Ask for closing-cost help or a rate buydown.
- **Get pre-approved first:** have pre-approval and proof of funds ready before touring — good homes won't wait if rates keep easing.

For Sellers 给卖家

- **Price for today's market:** anchor to recent comparable sales, not spring. Overpricing only helps your neighbor sell.
- **Front-load condition:** small repairs, deep cleaning and light staging earn the highest return — first impressions decide offers.
- **Stay flexible on terms:** a rate buydown or closing credit often nets more than holding firm on price — and closes faster.
